

2192-2268 Kenny Rd, 2217-2252 Wood Ave, 815-833 West Lane Ave

Herrick Archives Number H 940- 948

1. These are houses in the Wood-Brown Subdivision between Kenny Road and the railroad and south of Lane. Buildings 062 and 981 were also in this subdivision, but are not included in this report.
2. Demolition dates of these buildings have not been determined, but no indication of their use for University purposes has been noted. A possible exception is H 948, which Professor Emeritus Lawrence Kunkle thinks might have remained in use until 023 was erected.

See Addendum No. 1

3. Location of these buildings are shown on the map below.

4. Acquisition--These buildings were acquired by purchase. Below are indicated for each property the date of execution of the deed, the deed book reference, and the names of the grantors.

ADDENDUM NO. 1

Among the residents of these buildings were the following:

H 940 - 1926 City Directory: Harry Saunders and C. W. Ferguson. (The house was a double at 2196/2198 Lisle; not 2192 & estimated in report above)

- 1927 Day and Charles Ferguson
- 1929 Saunders and Charles Ferguson
- 1932 City Directory: Lloyd Blackburn at 2196 Lisle

H 945 or H 946 - the 1932 City Directory lists Alva M. Farley at 2243 Wood Avenue.

McCracken (4:17A) lists a brick barn and a frame house as being acquired by purchase. Presumably the brick barn was building 062 and the frame barn was H 948. He states that the frame barn was razed and the good material salvaged but does not give the date.

A 1929 aerial photograph shown Building 023 completed and the scars where building H 948 had been removed.

This supports Professor Knunkle's recollection as stated in the second paragraph of this report.

On May 16, 1932 the Cabinet authorized use of materials from demolition of H 940 for constructing an implement shed. (See Building 330)
